The First Mails through the Ehrenberg Arizona Territory Post Office

The Post Office at the Colorado River port of Ehrenberg was established Monday September 20, 1869. This cover would have arrived in Ehrenberg on the southbound stage from Mohave City on Saturday, September 25th. The first weekly Ehrenberg stage for San Bernardino departed this same Saturday morning. It is probable this cover was carried upon the first Noble & Waters stage from Ehrenberg to San Bernardino.

Yavapai and Mohave County mails for the Eastern States were preferentially routed west through California prior to 1875.
